
HAFI in Switzerland

Change in HAFI's representation in Switzerland

With effect from 31 December 2025, Link Beschlagtechnik AG, Volketswil, Switzerland, will no longer represent HAFI Beschläge GmbH in Switzerland. HAFI would like to express its sincere thanks to Markus Lüthi and his team for their successful and competent market development over the past years.

Mehrstufiges Vertriebsmodell bleibt bestehen

HAFI remains committed to its multi-level distribution model in Switzerland with its stock-keeping dealers. This ensures that HAFI products continue to be available quickly and affordably in Switzerland.

From 1 April 2026, a Swiss regional sales manager will also be appointed to provide direct customer support on site and act as a point of contact.

HAFI Beschläge GmbH

HAFI Beschläge GmbH, founded in 1978, is a medium-sized company that manufactures a wide range of high-quality fittings from stainless steel. HAFI offers the right solution for every type of building and every requirement across all trades. From door handles for residential buildings to electronic locking systems for public buildings. The shape and surface finish can be customised.
